

JOB OFFER:

***Construction Manager***  
for  
**Wind farms and photovoltaic power plants**

ELYS specialises in the design and construction of wind farms, photovoltaic power plants and HV electrical substations. For the past 15 years, ELYS has been acting as project manager or assistant project manager for developers of renewable energy projects and green electricity producers, who have placed their trust in our expertise, our ability to listen to their needs and our involvement on the ground to guarantee the quality of the works.

ELYS has been growing smoothly since its creation, and cultivates a team spirit based on cohesion, solidarity and self-fulfilment. New recruits are encouraged to develop their skills, and beginners are mentored. We work to ensure that everyone has a meaningful role to play.

If the development of a clean and peaceful future is important to you, if construction engineering interests you, and if you appreciate evolving in a company with strong human values, ELYS offers you the opportunity to enrich its teams and its actions. We invite you to apply by e-mail [rh@elys.eu](mailto:rh@elys.eu) with your CV, a covering letter and any recommendations.
